SUMMARY

M.Sc. graduate in Artificial Intelligence & Computer Science with practical software engineering experience in the banking sector (Deutsche Bank). Passionate about financial informatics, digitization, and secure system architecture.

TECHNICAL SKILLS

- **Core:** Python, Java, JavaScript, SQL, Object-Oriented Programming
- **Web & Cloud:** Vue.js, HTML/CSS, AWS (Lambda), GCP (BigQuery), REST APIs.
- **Data & Tools:** Pandas, Git, Linux.

WORK EXPERIENCE

Thesis Student - Deutsche Bank AG | Jul 2025 - Sep 2025

- Designed an agentic-AI automation framework for corporate action processing, directly contributing to the digitization of banking operations.
- **Tech Stack:** Google Cloud Platform (GCP), Vertex AI, BigQuery, Python, SQL.

Intern (TDI division) - Deutsche Bank AG | Jan 2025 - May 2025

- Participated in the Cloud Developer Sprint, gaining insight into the security and operational standards of a major financial institution.
- Debugged and optimized internal data-processing tools, improving system reliability for production teams.
- **Tech Stack:** Python, GCP, Git.

Software Developer - Zoomifier Corporation | Nov 2021 - Feb 2024

- Migrated a legacy CRM system to a component-based architecture, significantly improving maintainability and User Experience (UX).
- Built event-driven serverless functions to handle asynchronous API requests, reducing latency and enhancing scalability.
- Implemented automation workflows to sync data across multiple SaaS tools, reducing manual operational effort.
- **Tech Stack:** Vue.js, JavaScript, AWS Lambda, PHP, REST APIs, MySQL.

Software Development Engineer - Maverick Labs | Jun 2021 - Aug 2021

- Contributed to frontend web application development in an agile team environment.
- Wrote and maintained unit tests to ensure code quality and prevent regression bugs.
- **Tech Stack:** JavaScript, Jest, HTML, CSS, YouTrack, Git.

Software Development Intern - Maverick Labs | Dec 2020 - May 2021

- Identified and resolved production bugs, gaining early experience in the full software lifecycle and release management.

PROJECTS

E-Commerce Analytics & Data Warehousing

- Built a cloud data warehouse by integrating 9 raw relational datasets (orders, payments, reviews).
- Modeled complex data relationships to derive business insights on product performance.
- **Tech Stack:** SQL, BigQuery, Data Modeling, Visualization.

EDUCATION

M.Sc. Artificial Intelligence & Robotics | Hof University of Applied Sciences | Mar 2024 - present

M.Sc. Computer Science | Savitribai Phule Pune University | Jun 2019 - May 2021

LANGUAGES

English - C1 level | **German** - B1 level
